Assessment Methods:

Must be assessed and quality assured in accordance with the MP Futures SSO Assessment Strategy and MP Awards' evidence requirements.

There must be valid, authentic and sufficient evidence for all the assessment criteria. There is no requirement for each unit to be assessed separately. Assessors are encouraged to adopt a holistic approach, but it is essential that evidence for the assessment criteria in each unit is also identified individually.

Minimum Performance Evidence Requirements:

MP Awards recommends this qualification is assessed on-site once the candidate has undergone either formal or job-based training and is able to sufficiently demonstrate their competence. Performance assessment will be through workplace observation and product evidence. There is no minimum assessment period and it is expected that the qualification will be assessed in one visit.

Assessing Knowledge and Understanding:

For this qualification all learning outcomes must be assessed using methods appropriate to the assessment of work related knowledge and understanding. There must be valid, authentic and sufficient evidence for all of the assessment criteria. The examples in the list are not exhaustive.

Holistic approach is encouraged: Verbal/written questioning (recorded); Professional interview (recorded); coursework; candidate statements

Assessment System:

Whilst Approved Centres are free to develop their own assessment record system; MP Awards has developed a ready-made system for Centres to use which is available at no cost. However, Centres are advised to check with MP Awards when devising their own assessment system to ensure it meets the standards in full.
